

Program
Symposium on
Advances in Cosmochemistry
and Planetology
in Honor of Heinrich Wänke's
80th Birthday

Mainz, October 21, 2008

Max-Planck-Institut für Chemie
 Joh.-J-Becher-Weg 27 (University Campus)

Lecture Hall of MPCh at 14:00 hours

Start	Speaker	Title
14:00	Johannes Brückner	Introduction
14:15	Herbert Palme	Meteorites and the composition of Earth and Moon
14:45	Steve Squyres	Cosmochemistry goes to Mars: Scientific results from the Mars Exploration Rover mission
15:15	Göstar Klingelhöfer	Iron Mineralogy by Mössbauer Spectroscopy on Mars
15:45	Marcello Coradini	30 years of planetary exploration in Europe
16:15	<i>Coffee break</i>	
16:45	Horst Uwe Keller	Phoenix - Landing on Martian Ice
17:15	Gerhard Neukum	Episodic geological activity on Mars, and surface age correlations with the Mars meteorite radiometric ages (incl. Mars movie)
17:45	<i>Final Notes</i>
